

To Whom It May Concern:

I am writing in response to a letter I received regarding a concern that K-LOVE, a radio station which I listen to may be replaced by an LPFM. K-LOVE is broadcast from California, but I can listen to it in Ohio. K-LOVE tailors it's announcements to the local community to announce different concerts or events in the community. I believe K-LOVE has a positive effect on our local community. K-LOVE has hosted various concerts on our area and have people actively involved in our area. The content of the songs and comments on K-LOVE are family-oriented and promote goodness in our community. I would be saddened to see K-LOVE removed or replaced from the airways.

Thank you for your time and reading my concerns.

Sincerely,  
Lynn Putnam
